JACKSONVILLE, ILLINOIS, SATURDAY MORNING, APRIL 7, 1906.

PROPOSITION MADE MINERS

SOFT COAL OPERATORS OFFER TO ARBITRATE

Identical With One Mitchell Presented to Hard Coal Operators —Not Favored by Leaders —Nothing Now in Situation.

New York, April 6.—Interest in the labor troubles of the anthracite regions was overshadowed to day by a proposition that came out of the west for arbitration of differences existing between soft coal operators, who have not yet agreed to the 1903 scale, and their miners. The offer of the soft coal operators is identical, word for word, except where the term "bituminous" is substituted for "anthracite," with the one President Mitchell presented to the hard coal operators here yesterday.

There was considerable speculation as to how the miners' leader would receive his own arbitration plan for another field. He was much interested in the news, but maintained his usual silence when asked as to what he would do. Within an hour of the receipt of the offer from J. H. Wilder, head of the Ohio soft coal operators, he sent a reply to the effect that he had no power to act on the proposition, but would submit it to the international executive board of the union at its meeting in Indianapolis next week after next.

Leaders of the miners' union who were at headquarters to day did not think the international executive board would favor the proposition. A member of the board said that conditions in the soft coal regions are much different from those in the anthracite fields. He pointed out many operators had already signed the 1903 scale and that the number is increasing each day.

Nothing developed in the anthracite situation to day to clearly indicate what the outcome of next Monday's meeting between the subcommittees of the mine owners and union leaders will be. There was no formal meeting of operators, but most of them were in communication with one another. It was reported during the day that the arbitration offer of the miners would be flatly refused, but it was denied by those in authority that a final decision had been reached. It was also reported the operators may accept arbitration, but with a different sort of a tribunal.

President Mitchell to day concerned himself almost exclusively with business connected with the soft coal situation and had no information to impart regarding the hard coal miners. He said his side has nothing to do now, but to wait for the operators to answer. It has practically been settled that if the operators refuse the arbitration offer a call will go out at once for a convention.

DECIDE TO SIGN

Independent Soft Coal Operators in Pittsburgh District Willing to Pay 1903 Scale

Pittsburg, Pa., April 6.—At a meeting to night of independent soft coal operators, who organized to fight the 1903 scale, a majority of the operators decided to sign.

PEACE ASSURED.

Peace is now assured in the miners' situation, so far as the soft coal fields of western Pennsylvania are concerned. The organization of independent operators who were holding out against granting the advance demanded by the miners, at a meeting to night decided to give up the struggle and will sign the scale. All those at the meeting were representatives of operators who had bound themselves not to sign the scale. A number of other members not present will, was assured, sign upon learning of the action of the meeting to night. At the conclusion of the proceedings the following statement was given the Associated Press:

A large number of independent operators of the Pittsburg district have signed their intention of signing the scale of 1903 in justice to their customers. In doing so they fully believe the action taken by the joint convention in January at Indianapolis was the correct position to take in view of the conditions of the coal trade for the past few years. They believe conditions have in no way changed since the January convention that would warrant an advance in the wage scale at this time. Robbins, chairman of the Pittsburg Coal company, at that convention, and at the recent convention, stated that conditions did not justify an advance in the wage scale; the independent operators believe that in signing this scale it will work injury to the Pittsburg district. It may have the effect of ultimately establishing a differential against the Pittsburg district in favor of the western states; and by increasing the wage scale in a depressed market and against the conditions of the coal trade it may ultimately work injury to the miners' organization itself."

Philadelphia, Pa., April 6.—Much importance is attached to the meeting of independent operators held to day in

Wilkes-Barre. Among mine workers the impression appears to be growing that Mitchell's arbitration proposition is not altogether acceptable to the operators and fear is expressed it may be rejected when the conferees meet in New York Monday. Nothing was made public to day concerning the meeting of the independent operators. Mine workers generally express belief renewal of the conciliation board's award is the best the operators will offer. In view of this belief, miners' locals throughout the anthracite field have decided to exert every effort to prevent resumption of mining until the New York conferees arrive at a definite result.

Squads of state police traversing the anthracite region discover no disorder of moment. Warrants were issued at Pittston to day for the arrest of four members of the state police. They are charged with entering the homes of mine workers and confiscating guns.

PEORIA OPERATORS

Peoria, April 6.—Twenty-five coal operators, representing 98 per cent of the annual output of soft coal in the Eighth Illinois district, to night adopted "stand pat" resolutions to hang together and refuse to sign up with the miners. It developed that not a single operator in the district had signed and all reports to that effect were strenuously denied by members of the operators' association.

SPRINGFIELD OPERATORS.

Springfield, April 6.—At a meeting of operators of the Springfield district it was unanimously decided to day not to sign the 1903 scale. Reports from Streator are that eight mines in that district have signed the 1903 scale and it is expected that more will take similar action soon.

IOWA MINERS.

Des Moines, Iowa, April 6.—The joint conference of Iowa coal miners and operators took recess to day until Tuesday next, but not until the miners had expressed consent to a settlement of a single question in the proposed scale until the basis for wage prices is determined.

SIGNED SCALE.

Kansas City, Mo., April 6.—A large number of small operators in the southwestern coal districts have signed the scale, and several thousand men have returned to work.

IOWA LEGISLATURE

Des Moines, Iowa, April 6.—State wide primary, anti-pass legislation, educational board of control and the two cent fare bill were the chief matters of importance in the general assembly of Iowa, which concluded a session of almost three months this afternoon.

Only one of these was enacted into law. The anti-pass bill was passed by both houses and signed by the governor and applies to all state and federal officers in the state. It becomes effective on July 4th.

The chief contests of the session centered in the state wide primary bill and a measure providing for a separate board of control to take charge of the affairs of the three state educational institutions of the state. Both were defeated after exciting debates. At the closing session to day a committee was appointed to investigate the insurance companies of the state.

The measure providing for redistricting of the state was defeated. Extraordinary appropriations allowed by the general assembly amounted to \$16,000. Of this \$14,000 went to state institutions under the board of control; \$200,000 went to educational institutions; the tuberculosis hospital got \$30,000, and the historical building \$60,000. The other \$10,000 went to a large number of more or less important purposes.

ARE USING HAY.

Britt, Iowa, April 6.—As a result of the coal strike the Britt Light, Heat and Power company is to night using hay at two dollars per ton as fuel. Only one day's supply of coal remains for an emergency and Superintendent Goodman says by to morrow night the dynamos will also be run by energy from burning slough grass. Orders for soft coal were given operators at Boone two months ago, but these orders were never filled.

SALOON TRAGEDY

Alton, Ill., April 6.—Christopher Davis, aged 68 years, shot and instantly killed Charles Stuckenborg in Immenger's saloon to day, attempted to kill Fred Immenger, the saloon keeper, and then attempted to kill himself. Davis was immediately arrested and taken to Edwardsville and placed in jail.

Stuckenborg was talking with some men in the saloon when Davis, a stranger to him, entered and without a word shot the former dead. Davis then fired at Immenger, but missed him. He then attempted to shoot himself in the head, but his hand was unsteady and he only shot a hole through his hat. He was disarmed and arrested. Davis gave no reason for the shooting.

BANK CLEARINGS.

New York, April 6.—The total bank clearings compiled by Bradstreet's for the principal cities in the United States the past week were \$3,131,968,465, an increase of 4.3 per cent, compared with the corresponding period last year.

FIELDS MAKES A STATEMENT

NEVER GAVE A BRIBE IN HIS CAREER

Former Legislative Agent of Mutual Life Insurance Company Heard From—Trustees Are Challenged.

New York, April 6.—Andrew C. Fields, former legislative agent of the Mutual Life Insurance company, gave out a statement to day declaring he never gave a bribe in his career; that he was prepared vindicate himself completely; that he intended to tell the whole truth, and that he had saved the Mutual Life hundreds of thousands of dollars. Fields declares stories concerning the "House of Mirrors" at Albany are malicious libels and that he never had any business relations with Andrew Hamilton. The contingent fund of \$600,000, Fields said, will be satisfactorily explained. Fields adds:

"All those trustees of the Mutual who are now pointing with the finger of scorn at me were aware of all I was doing in connection with legislative work for the Mutual, and when they say they were ignorant of the character of my work they are saying what is untrue.

"I am here to challenge them in every such statement they may make or have made. I do not propose that men associated with me in the Mutual shall destroy my reputation to further their own private ends. I am ready to tell the truth, no matter who it may hurt, be his position high or low."

ALGER NOT A CANDIDATE.

Detroit, Mich., April 6.—Announcement was made this afternoon that Senator Alger will not be a candidate for re-election. Alger gives as a reason his health will not permit of an active campaign. He will finish his present term and then retire.

Washington, April 6.—Senator Alger's determination not to be a candidate for re-election does not occasion surprise to his friends in Washington. For some time his health has not been good. He is suffering with a weak heart and early this week while at Atlantic City, whether he had gone for rest and recuperation, his condition for a time was said to have been serious. The senator rallied, however, and last Monday returned to Washington somewhat improved. Since his return to Washington he has kept to his home. He expects to resume his seat in the senate Monday.

DOWIE SPECULATED

Said to Have Lost Over a Million Dollars in Wall Street.

Chicago, April 6.—Officials of the church at Zion City declared to day it was believed Dowie had lost \$1,200,000 in speculations in Wall street. It is declared he opened accounts with four stock exchange houses and that three of them went out of existence soon after he had deposited margins for the protection of his debts. The greater part of the money, it is said, was lost by Dowie during the slump of 1903.

DOWIE TALKS.

Mexico City, April 6.—John Alexander Dowie, before leaving for Chicago, said, showing deep emotion, in reply to questions as to how the revolt in Zion City could be explained:

"Now, how am I to explain it? It is merely a guess and I may be wrong, but I think I am right. They, my wife and son, and all of them, thought I was going to die and have been deeply disappointed. Apparently I am going to live and am on my way back home."

He declared his intention to fight for his rights, denied all charges made against him and insisted that all his financial transactions were honestly conducted.

VOLVIA INTERVIEWED.

Chicago, April 6.—In an interview to night General Overseer Volvia, who has supplanted Dowie at Zion City, said that when Dowie returns to Zion City next week he would be accused of extravagance of the most shameful kind, misrepresentation, exaggeration, mismanagement, polygamous teachings in private, tyranny, injustice and indolence. Dowie will be treated fairly, according to Overseer Volvia and will be given every opportunity to meet every charge and to make reply. Newspapers will be permitted to have representatives present at the trial, but lawyers will not be allowed on either side, as the proceedings will be purely ecclesiastical, Volvia said.

DOWIE AND PARTY.

Laredo, Texas, April 6.—John Alexander Dowie and party of followers are scheduled to reach Nuevo Laredo, just across the border, to morrow morning, where a short stop for inspection of baggage by Mexican customs authorities will be made and he will cross the border enroute to Chicago. Local immigration officials believe Dowie is a foreigner, native of Australia. If such is true and he has failed to secure naturalization papers, the reg-

ular head tax of \$2, collected from all incoming foreigners, will be exacted.

DOWIE HAS PAPERS.
Chicago, April 6.—John Alexander Dowie took out his first naturalization papers three years ago and the immigration officials at Laredo will have no trouble over his citizenship.

FIRE LOSSES.

Portland, Ore., April 6.—Fire to day destroyed the eighth story of the Chamber of Commerce building and was the indirect cause of the death of Homer K. Hallock, right of way agent for the Willamette Traction company. Hallock, who was one of the best known railroad men in the northwest, was in the commercial club when the fire broke out. He tried to escape through a window, but the glass giving way he fell and was instantly killed. The property loss is estimated at \$100,000.

ARRESTED FOR EMBEZZLEMENT.

Manitowoc, Wis., April 6.—James Nolan was arrested here to day charged with embezzlement by Peter Bleser, a Manitowoc county farmer, who alleges that Nolan appropriated \$300 which he had collected for the complainant. He was unable to furnish bail. Nolan is a prominent politician, has served as county clerk, chairman of the Democratic county committee and two years ago was the Democratic candidate for secretary of state.

BANKERS IN TROUBLE

Accused of Embezzlement in Connection With Failure of Pokin Institution.

Peoria, Ill., April 6.—Charged with embezzlement, in conjunction with the failure of the Ties-Smith Bank of Peoria, April 2, D. C. Smith, president of the bank; Conrad Luppe, cashier; Henry Vrede, Henry Block and E. F. Uland, partners, were arrested this afternoon. They gave bonds to night and were all again arrested on a second warrant sworn out by another partner. In the last arrest D. C. Smith, Jr., a bookkeeper, was also included. Bonds were also given and the prisoners released.

The bankers are the wealthiest and most prominent citizens of Tazewell county. The failure of the bank is complete and it is now estimated that not above 20 per cent can be paid on deposits, which amounted to \$42,000; the \$36,000 assets are tied up in the stock of the T. H. Smith-Wagon company and the Pokin Plow company. The plow company is defunct. Involuntary bankruptcy proceedings were started in the federal court at Peoria to day and it is expected the partners in the bank will be compelled to dispose of property enough to largely increase the dividends. Luppe, a sixth partner, has surrendered \$25,000 worth of his property, which is supposed to be his entire estate, and has been unmolested in the criminal proceedings.

ATTEMPT TO WRECK TRAIN.
Edwardsville, Ill., April 6.—An attempt to wreck a passenger train to night on the Toledo branch of the Wabash railroad was foiled by a guard rail that held the wheels to the track. On a high embankment a frog in the track had been filled with heavy pieces of iron and the wheels crashed into it, jarring the train, but it was not derailed.

RESIGNED AS RECORDEIR.

Kansas City, April 6.—Elder Henry A. Stebbins of Lamont, Iowa, who has been recorder of the Church of Latter Day Saints for thirty-two consecutive years, has resigned, giving his age as the reason. His successor will be chosen Monday.

PRINTERS DISCHARGED.

Washington, April 6.—One hundred printers were discharged to day by Public Printer Stillings, the reason assigned being lack of work. It is expected as a result of the present agitation for reduction in the amount of government printing a number of others shortly will be dismissed.

KILLED BY SCHOOLMASTER.

Los Angeles, Calif., April 6.—Dale Norton, 16 years old, a pupil of the Harvard school, for boys in this city, died from being struck by a 12-pound shot thrown by Joseph Holliday, a schoolmate, while the track team was putting the shot on the play grounds.

AMATEUR BOXING.

San Francisco, April 6.—In the national amateur championship boxing tournament for three successive nights, under the auspices of the Olympic club, which ended to night, the championships went to members of that club.

NO TRUTH IN STORY.

Berlin, April 6.—There is no truth in the story that an automobile in which Emperor William was riding ran down a woman here to day. An automobile following that carrying the emperor ran down a woman and caused slight bruises.

GERMAN VICTORY.

London, April 6.—A dispatch from Dar Es-Salaam reports the victory of Captain von Hasse over Watagore natives in German East Africa. The natives lost 205 killed.

TRIES TO FIX DATE FOR VOTE

EFFORT MADE IN SENATE BY TILLMAN

Aldrich Objects and Wants Railroad Rate Bill More Perfected Various Subjects Discussed in House.

Washington, April 6.—In making an effort to day to get the senate to agree upon a date for taking a vote on the railroad rate bill Tillman made the important statement that one week more probably would exhaust general debate on the measure. He failed, however, to secure the consent of Aldrich, who said he would not be willing to agree to a vote on the bill until it was more neatly perfected than it now is.

During the day there were three addresses on the rate bill. The first of these was made by Aldrich, who, while expressing the opinion the situation demands legislation, indicated many defects in the pending bill.

Gamble followed in support of the bill and Keay closed in opposition. Elkins was frequently interrupted and several spirited colleagues marked the progress of his remarks.

Among the bills passed to day by the senate were: Providing for the erection of a public building at Portsmouth, Neb., at cost of \$60,000; authorizing a cable from Key West, Fla., to Guantanamo, Cuba, and thence to Panama, for governmental and commercial business, at a cost of \$20,000; granting relief to settlers on indemnity lands of the St. Paul, Minneapolis & Manitoba Railway company in Minnesota; providing for the settlement of the claim of \$67,000 of the United States against the state of Michigan, on account of the St. Mary's Falls ship canal; authorizing appeals to the circuit court of appeals from interlocutory orders of circuit courts involving constitutional questions.

HOUSE

The tariff, railway mail subsidy, enlarged alcohol and enlarged postal facilities for western cities were features of debate in the house to day. What were alleged to be iniquities of the Dingley law, as far as the manufacture of watches is concerned, were destroyed by Balney of Illinois, whose tariff revision speech was listened to with interest. The so-called "stand-patters" made copious notes for discussions on protection which are forthcoming.

CORPORATION BILL.

Representative De Armond of Missouri introduced a bill to day providing that for the purpose of jurisdiction in judicial proceedings every corporation doing business or having an office in any state shall be deemed a corporation of that state. The bankers are the wealthiest and most prominent citizens of Tazewell county. The failure of

TRY**

A Sack of

Hercules Flour for your home baking!

Every housewife enjoys making Bread, Rolls, Biscuit and Pastry when she has good luck with the baking.

With Hercules Flour it's not a question of having good luck, but of using the right flour.

All grocers sell Hercules.

The Fitzsimmons-Kreider Milling Company, Makers.

Would you know—a safe physic?

Most pills and laxatives are not. Something more than a purgative is necessary in a good physic. There are hundreds of preparations which will make the bowels act, but very few of them will do so without great damage to the digestive organs. Candied preparations, coated pills, certain salts, and other well known and widely used remedies force the bowels to action, but at a great cost of strength to the intestinal muscles. Such preparations act unnaturally. They weaken the entire system, and the patient is left in a worse condition than if nothing had been taken.

Dr. Caldwell's Syrup Pepsin is not like other laxatives. It never weakens, but always strengthens. It is pleasant to take, acts gently upon the bowels, never gripes, and once the bowels are given the strength which it imparts, they are quickly restored to a permanently normal condition, fully able to voluntarily perform their functions.

Dr. Caldwell's Syrup Pepsin is unequalled in the treatment of dyspepsia, indigestion, constipation and all stomach disorders. It is sold by all druggists at 50 cents and \$1.00 a bottle.

Your money back if it doesn't satisfy.

Pepsi Syrup Co. Monticello, Ill.

ILLINOIS NEWS ITEMS

Pekin—**Linen Trouble**—Shelbyville Wants to See Inside Its Saloons—Tracked His Man-Joliet in Danger.

TOLD WHAT THEY MUST DO.

Pekin—Although there were many rumors of threatened action against the members of the defunct banking firm, nothing has transpired. Notice was served one the owners that they must turn over all property held by them, and it is said that Lupe Luppen, father of Cushing Coffield Luppen, transferred his property, valued at \$75,000, to the assignees. It is expected that the other members will do likewise. If the trustees and creditors are not satisfied with the amount of property turned over to the assignees, it is almost certain that an action in bankruptcy will follow. Since the announcement of the indebtedness of the Pekin Plow company to the bank, which is \$267,200, the depositors are of the opinion that they will not realize more than 10 or 15 per cent on their deposits.

BEHIND DIRTY PANES.

Shelbyville—A new form of application for saloon licenses has been adopted by the board of aldermen of this place. A year ago all the screens and connecting rooms in saloons were abolished, but now the saloon men must keep the windows free from dust and dirt so that the interior of the saloon may be seen from the outside.

A TRIPPLE-JAWED MULE.

Mt. Sterling—A brood mare owned by Helen Putman of Versailles this week dropped a mule colt that possesses such extraordinary features that if it lives will surely make it famous as a curiosity. This consists of two lower jaws, both of which are supplied with tongues, each one of which can be used independently. Otherwise the little fellow is similar to other colts, finds no trouble in sucking and is apparently thrifty in every way. This mule is quite a curiosity and has attracted a good many visitors to see it.

TRACKED HIS MAN.

Cairo—After tracking his man for five years, the colored Sherlock Holmes, Frank Walker, arrested Andrew Johnson, wanted in Wilkinson county, Mississippi, for killing Jerry Wright. Walker, assisted by Constables Whit Larry and D. King, shadowed the man and arrested him on the stone wall near Fourteenth street. He will be taken to Mississippi. There is a reward of \$250 for the capture of the man.

INVESTIGATION COMMITTEE.

Chamberlain's COUGH REMEDY A FAVORITE.—"We prefer Chamberlain's Cough Remedy to any other for our children," says M. J. Woodbury of Twin City, Mich. "It has also done the work for us in hard colds and croup, and we take pleasure in recommending it." For sale by all leading drugists.

POLITICIANS ARE PUZZLED. Chas. M. Tinney, of Springfield, secretary of the bureau of prison industries, was a Friday visitor in the city. He stated that the political atmosphere of Springfield Thursday evening when the decision of the supreme court regarding the primary law was made known was surcharged with excitement and that the hubbub among politicians in hotel lobbies and other semi-public gathering places was a sight to behold. Not in recent years has as much confusion among politicians been created by a court decision as was the case when the opinion of the supreme court was made public Thursday and the end is not yet.

To day only we will give with every 50 cent purchase \$1.00 worth of trading stamps; with every 25 cent purchase we will give 50c worth of stamps.

Hopper & Schaefer's Meat Market.

CHEAPEST THINGS BEST. Bob Burdette says that the good things of this world are always the cheapest. Spring wheat costs less than corn whiskey, a box of cigars will buy two or three Bibles, a gallon of old brandy costs more than two sacks of flour, a full hand at poker costs a man mere in twenty seconds than his church subscription would amount to in three years, a town election costs more than a revival of religion, people sleep for half an hour in church free, but a nap on a Pullman costs \$1.50 to \$2.00—Exchange.

LIBRARY BOARD.

Members of the library board held their regular monthly meeting at the library Friday evening. Routine business was transacted and it was voted to close the library one day next month in order that the library staff might attend the state convention of librarians to be held in Springfield. The date will be announced later.

April 25 to May 5 inclusive, the C. B. & Q. will have on sale round trip tickets to the City of Mexico and return; limit 60 days, at the low rate of \$56.00. Call on or address G. W. Dye, Div. Passenger agent, Jacksonville, for any information you desire regarding these excursions.

For sale by dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—DOAN'S—and take up other

ROAD DRAGGING

Some Pertinent Suggestions as to Best Manner of Keeping Thoroughfares in Good Condition.

Advanced press copies of bulletin No. 1 of the state highway commission, entitled "The Earth Road Drag—How to Make It and How to Use It," have just been issued and contain many practical suggestions on road improvement. A copy will be sent to each road commissioner in the state, and the state commission desires that the bulletin and others to follow be given as much publicity as possible.

The bulletin deals with different models of road drags, with which the public is by this time more or less familiar and gives the following on the theory or road dragging.

"If a sample of moist earth is taken from the traveled portion of a road over a gumbo, clay or black prairie soil, it will be found practically impervious to water, as may be proved by forming a roughly shaped dish of damp earth and filling it with water. It will be noticed that the dish is practically water tight.

"Earth in this condition is what the clay workers call puddled. It has been worked and reworked by the carriage wheels and animals' hoofs until nearly all the traveled portion of sticky muddy road is covered with a layer of this impervious, puddled earth.

"As usually found on most of the roads, this puddled earth is full of holes and ruts, which are filled with water which cannot escape through this impervious soil. As long as the water remains the road cannot dry out and remains in a most uncomfortable, if not impassable, condition. It is also a matter of observation that this puddled earth when compressed and dried becomes extremely hard. On these two facts—the imperviousness of puddled earth, and its hardness when dried—rests the theory of road dragging."

The following instructions for road dragging will perhaps prove helpful to those who take an interest in the matter: Make a light drag, which is hauled over the road at an angle so that a small amount of earth is pushed to the center of the road.

Drive the team at a walk. Ride on the drag; do not walk alongside. Begin at one side of the road or wheel track, returning up the opposite side.

Drag the road as soon after every rain as possible, but not when the mud is in such a condition as to stick to the drag.

Do not drag a dry road.

Drag whenever possible at all seasons of the year. If a road is dragged immediately before a cold spell it will freeze in a smooth condition.

The width of traveled way to be maintained by the drag should be from eighteen to twenty feet; first drag a little more than the width of a single wheel track, then gradually increase until desired width is obtained.

Always drag a little earth toward the center of the road until it is raised from ten to twelve inches above the edges of the traveled way.

If the drag cuts in too much, shorten the hitch.

The amount of earth that the drag will carry along can be very considerably controlled by the driver, accordingly as he stands near the cutting end or away from it.

When the roads are first dragged after a very muddy spell the wagons should drive if possible to one side until the roadway has a chance to freeze or partially dry out.

The best results from dragging are obtained only by repeated applications.

Remember that constant attention is necessary to maintain an earth road in its best condition.

THE PROPERTY

CALLED HEALTH is the most valuable property we have and should receive the most attention. It helps in business, helps good looks, helps make friends, helps get situations and helps hold them, and always makes happiness. Property like this cut of repair should be looked after. Billious spells, indigestion, dyspepsia, belching, dizziness, sick-headache, sallow complexion with pimples and liver spots, a drowsy feeling after meals, sour stomach, etc., all show loss of health. Druggists will sell for 25c a box. Dr. Gunn's Improved Liver Pills. One for a dose. A cure for all these diseases. Made by Dr. Bosanko Co., Philadelphia, Pa. For sale by J. A. Obermeyer, City Drug Store.

FOR HOME MERCHANTS.

Patronize this C. P. & St. L. with your freight business and thus help the home trade of our city.

The C. P. & St. L. pay roll in Jacksonville is about \$15,000.00 per month which benefits every merchant in the city whose freight business in this home road solicits.

The C. P. & St. L. runs a through merchandise car from St. Louis every night, reaching Jacksonville early the next morning.

The C. P. & St. L. can handle your freight business to advantage from Chicago, Minneapolis, St. Louis, New York, or in fact from any point.

ANNOUNCEMENTS.

FOR SHERIFF.

I hereby announce myself as a candidate for the Republican nomination for the office of sheriff, subject to the approval of the Republicans at the primaries and in convention.

CHARLES B. GRAFF.

FOR COUNTY CLERK.

I hereby announce myself a candidate for the nomination for the office of county clerk, subject to the decision of the Republican voters in primaries and convention.

JAMES S. MERRILL.

FOR COUNTY JUDGE.

I hereby announce my candidacy for the office of county judge of Morgan county, subject to the decision of the Republican voters at the primary election, to be held April 23, 1906, and the convention following.

W. M. MORRISSEY.

FOR SUPERINTENDENT OF SCHOOLS

I hereby announce myself a candidate for the office of county superintendent of schools of Morgan county, subject to the decision of the Republican voters at the primary election to be held April 23, 1906.

M. L. TEST.

FOR ASSESSOR AND TREASURER.

I hereby announce myself a candidate for the nomination for the offices of assessor and treasurer of Morgan county, subject to the decision of the Republican voters at the primary election.

J. W. M'ALISTER, JR.

FOR COMMISSIONER.

We are authorized to announce the candidacy of Peter D. Menginson for county commissioner, subject to the decision of the Republican convention, to be held May 3, 1906.

FOR REPRESENTATIVE.

I hereby announce myself a candidate for the Republican nomination for representative in the general assembly from the Forty-fifth district. If re-elected I shall vote for the Republican candidate for United States senator receiving the highest number of votes in this senatorial district, and shall assist the state administration in its efforts to improve the public service of the state.

FRANK J. TIGGINS,

Jacksonville, Ill.

I hereby announce myself as a candidate for the Republican nomination for state representative in the Forty-fifth senatorial district, subject to the decision of the primary election to be held April 23, 1906, and I pledge myself to support the candidate for United States senator who shall receive the majority vote in the Forty-fifth senatorial district.

J. D. McLean.

FOR STATE SENATOR.

I hereby announce myself a candidate for the Republican nomination for state senator from this district. If nominated and elected, I shall vote for the Republican candidate for United States senator receiving the highest number of votes in this senatorial district.

LOGAN HAY,

Springfield, Ill.

When the chouse and senate fall out we may learn some great truths that otherwise we should only suspect.

FUNERAL NOTICE.

The remains of Patrick McDowell arrived in the city at midnight Friday and were taken to the home of Henry McDonnell, corner of Court and Fayette streets. Friends desiring to view the remains will call at the house at 2 p. m. to day when the funeral will take place. Services for the deceased were said in Chicago. George and Henry McDonnell, of Chicago, sons of the deceased, and Richard Burke, a son-in-law, accompanied the remains to this city.

GRAVE SODDING.

Now is the time to notify the sextons of the cemeteries if you want to have grave or lot sodding done.

Your order should be telephoned at once so that the work may be done while the spring rains are prevalent.

The front of the Leader store on the east side of the square is being treated to a fresh coat of paint.

A woman who has the care of a large household on her hands has invented a "grumble book," in which the family are requested to enter their complaints.

Grand Opera House

SIGMA PI.

Sigma Pi Literary society of Illinois college held its regular meeting in the Sig hall Friday evening. The program given was as follows:

Declaimers—Maxwell Affairs in Cuba; Kilpatrick, Daniel Webster on Dartmouth College.

Reader—Kilpatrick. A Coat Like Process.

Essayists—Schroeder. The Greatness of Illinois; Roy Carter, Women Wage-earners.

Extemporizer—Frank. Spring Athletes.

Debate—"Resolved that the United States should create a monopoly of life insurance." The affirmative was upheld by Young and Case, the negative by Schroeder and John Carter. The president awarded the ability to the negative, the house voting the merits to the affirmative.

L. E. Stone was present and made a rousing speech.

The annual open meeting of the society will be held Wednesday evening, April 23, at 8 o'clock.

PHI ALPHA PROGRAM.

Essayist—McKown. The Bible and the Public School System; Angerstein. Position of the House of Commons in the English Government.

Declaimers—Shibe; Charles Summer; Empson; The Present Age; Hurie E. J.; Aaron Burr; Clark; Our Veteran Soldiers.

Orator—H. A. Graves. The Man from Illinois.

Reader—Spruit. A Game of Football.

Extemporizer—J. H. Brown. Primary Law of Illinois.

Debaters—Affirmative: White, H. N. Graves, Van Winkle; negative: Dixon, McDonald, Watson.

Question: Resolved, That a constitutional amendment should be adopted providing for the election of United States senators by direct vote of the people.

The debate was a special one between a team from Phi Alpha and the academy team which is to debate Knox academy, hence no decision was awarded.

During the meeting George Geobel was voted into the society.

PHILOLOGIAN SOCIETY

Members of Philologian literary society held their regular meeting Friday evening in Bercher hall and the following program was given:

Declaimers—Wright, "Death of Garfield;" Norbury, "Blind Man and the Elephant."

Reader—Hallam, "A Battery in Action;" Mathews, "The Drummer Boy."

Essayist—Frye, "District Attorney Jerome."

Narrator—Edwards, "A Front Deader's Practical Joke."

Extemporizer—Foster, "Is it best to be a member of Philologian Society?"

The society adjourned after the first part of the program for the debate with Phi Alpha society, the question being one that the Whipple students will debate with the preparatory students of Knox college preparatory school.

HINTS FOR FARMERS

Mutton in Butter.

Salting butter that is up to 58 or 60 degrees with salt that is down close to the freezing point will cause mottles in the butter. The very cold salt hardens the fat cells. To prevent this warm the salt to the same temperature as the butter. Some one has suggested using a trivet in the butter after taking out of the churn and it streaks are found then putting it back in the churn and working it more. While this might improve it in one way, it would injure it in another by overworking it. Dried cream sticking to the side of the vat often causes streaks in the butter. It is better to adopt ways of preventing mottles getting in the butter as far as possible rather than to undertake to remove them after they are in there. A strainer is one of the best utensils for preventing this trouble. — V. M. Couch in Rural New Yorker.

Value of Various Feeds.

Slage has no market value. Corn silage is commonly reckoned to be worth about \$2 a ton, and I suppose it would be fair to assume that per vino silage of good quality is worth something, say \$2.50. Cull beans can best be fed to sheep, pigs or steers, but they must be fed with care in all cases and for pigs or steers must be first boiled. If they are free from dirt, they are probably worth from \$10 to \$12 a ton.

Beans are too costly for stock feeding as a rule. They are rich in protein. They are sometimes fed to sheep and uncooked as a part ration; for hogs and other stock they are usually cooked and mixed with cornmeal or other material. — Professor H. H. Wing in American Agriculturist.

Worms in Horses.

For horses mix one teaspoonful of copperas and two teaspoonsful of cotton-seed meal at a dose, morning and night, for a week. Then give a purge of one ounce of spirits of turpentine and one pint of raw linseed oil. In three weeks repeat the above treatment. Between the two courses of treatment and for two or three weeks after the last, if necessary, give the following: Powder and mix four ounces each of copperas and saltpeter, divide into twenty-four powders and give a powder night and morning in a small hot bean mash. — Atlanta Constitution.

Clean the Plow.

The following plan for cleaning the plow, which will work well on other tools of iron or steel, is recommended: Slowly add one pint of sulphuric acid to one quart of water, handling it carefully and stirring slowly, as considerable heat will result from the mixing. When it is cool moisten the surface of the metal with this and then rub dry, after which wash off with pure water. This application should clean any surface not too badly rusted, but if the tool has been long neglected it may require more than one application. After cleaning a thorough coating of grease is given before putting the tool away, and when taken out to use give another greasing, and it will go easier.

Increased Potato Yield.

In a three year test of growing potatoes after clover at the Ontario station an average increase of thirty-seven bushels per acre was obtained as compared with growing potatoes without the use of clover. For fertilizing the land for potatoes it is recommended to use a moderate quantity of barnyard manure applied on the clover in the fall or of well rotten manure used in the spring or if commercial fertilizers are used an application of 500 or 800 pounds or more per acre in the proportion of 250 pounds of nitrate of soda, 350 pounds of superphosphate and 200 pounds of sulphate or muriate of potash.

Ensilage for Dairy Cows.

A dairyman who two years ago was induced to put up a silo and feed his cows ensilage has this to say in speaking of his experience: "I cannot refrain from saying that to the dairyman the value of it has not been half told. To my mind it furnishes a solution of the question of how to get the largest possible amount of interest out of our lands, and I believe that the dairy cow and the silo are so far the best solution of the question offered. I believe that the importance of the silo should be kept uppermost in the minds of the Dakota farmers." — Dakota Farmer.

Peanut and Wheat for Pigs.

In some Idaho tests pigs were fed from Aug. 18 to Sept. 25 on shorts soaked from one feed to the next. From Sept. 25 to Nov. 21 they were fed chopped wheat and from Nov. 25 until Dec. 17 they were given a mixture of one third chopped wheat and two-thirds pea meal. The pigs made the largest gains during the period when the mixture consisted of pea meal and chopped wheat. This mixture, however, was not fed long enough to warrant definite conclusions regarding its value.

Concerning Poultry.

No farmer is justified in keeping mongrel poultry, not in this day and age of the world. It is the same with poultry as with horses, cattle or hogs—the most money is made in producing thoroughbred stock. It takes no more horse room or yard room and no more feed to raise pure blooded fowls than it does to

The Journal's Ads.

A LITTLE NONSENSE.

The Kind of a Hat a Certain Individual Wanted

The manager of one of New York's department stores tells of an extraordinary order that the millinery department of his establishment received from an individual who lived in a section where, to use her own words, "the millinery air not of a high order."

The order in question was for a "bonnet" and ran as follows:

Matured of head from ear to ear over top of the head, twice as broad as ear under my chin nine and a half inches; from forehead to back hair, seven inches. I want a black lace bonnet with streamers and rosettes of red or yellow setting ribbon and would like a bunch of pink Roses or a blue plume with a black jet buckle. If artificial flowers still the attire will be better. I want a bird's nest, a dove, a peacock, a dragon, a peacock tail fancy, but if you think a reath of peacock would look good, why, put one on. I have some good pink ribbon here at home, so you need not put on strings.

Lippincott's Magazine.

Hopeless.

"Blanche is simply hopeless," cried a woman who was trying to teach one of her friends to play bridge whist.

"Why?"

"I began by asking her if she knew the value of the cards," continued the woman, "and Blanche said: 'Why, certainly. About 10 cents a pack,'" — Detroit Free Press.

Poetry.

"Everybody should read a little poetry every day," said the literary man.

"Certainly," answered Mr. Cummins. "My advertising man recognized that long ago. In order to make sure people will read our poetry we print it on billboards and in the street cars instead of in books," — Washington Star.

Top Notch of Shoe Goodness

There is a distinctiveness about our shoes, the very air of superiority pervades every shoe shown by us. Never did we have greater cause for pride in our offerings than we take in our showing of spring oxfords and shoes. Our efforts seem to be crowned with greater success than we looked for. The extensive assortment of the now and popular things cannot help but appeal to you.

Our Children's Shoes

We fit children as they should be fit to avoid all future troubles. It is one of our many specialties. Get foot-form-shaped shoes for the children, they are comfort.

and warmer Saturday; Sunday, showers
and cooler.

DENTAL SOCIETY.
The Morgan County Dental society held a most interesting session at the Colonial Inn Thursday afternoon and evening.

The society was honored in having present with them Dr. Arthur Black, Dr. C. M. Thompson, Dr. F. B. Noyes and Robert Brewster, all of Chicago, and several very interesting and valuable suggestions were gathered from the clinics given by them in the afternoon.

A banquet was enjoyed at 6 o'clock, following which the guests read papers on timely subjects under consideration in their profession.

Resolutions of respect were also adopted regarding the death of Dr. H. R. Dahman.

Fine ripe bananas 10c doz. at Snerly & Taylor's.

NOTICE. Having severed my connection with Brady Bros. Hardware Co., I have opened a tin shop at 109 South West street, formerly occupied by George Fox, where I will do a general line of tin, sheet iron and slate roofing; also guttering, spouting and repairing. Shop phones: Illinois 52, Bell 407; residence, Bell 680-R 5. Harry York.

Save 5¢ on millinery at Leader.

DO NOT NEGLECT A BAD COLD. Never allow a cold to take its course. Too often at this season of the year its course is towards pneumonia. Chamberlain's Cough Remedy will promptly cure your cold and dispel all danger of that disease. There is nothing better for acute throat and lung troubles. For sale by all leading druggists.

Ledford's for baseball goods.

DEATH RECORD

In Society.

TIFFANY.

President Springfield News: J. M. Tiffany, the father of Dr. L. C. Tiffany, died Thursday evening at his home in Fredonia, N. Y., at the advanced age of 95 years. He had been sick but a few days. He was born in Sharon, Vt., Oct. 22, 1811, and moved with his father's family to Erie county, N. Y., in 1817. Dr. Tiffany will leave to night for New York, where he will attend the funeral services, which will probably be held Sunday.

Smoke the Kenwood 5¢ cigar.

OJIO CIRCLE MEETING.

The Ojio Circle of the Christian church met Friday evening with Miss Eleanor Thompson. A most delightful time was had by all present. The hostesses were Misses Eleanor Thompson, Lois Pierson, Josie Pyatt and Dorothy Finley.

Fine ripe bananas 10c doz. at Snerly & Taylor's.

Mayor Devereaux, John Vredenburg and Mr. Gordon were members of a Springfield party that spent Friday in the city. They came down Thursday evening and returned to Springfield on the Wabash flyer this morning.

Attention of Journal readers is called to the advertisement of the hardware firm of H. L. & B. W. Smith which appears on page two of this paper. Watch this space for the latest news regarding hardware offerings and supplies. This firm is one of the oldest and most reliable business houses in the city and their stock is always complete and thoroughly up to date.

DOORS ARE CLOSED

Y. M. C. A. Directors Take Action Looking Toward Raising of \$12,000, Imperatively Needed

The doors of the Young Men's Christian Association are closed and the following explanation is posted on the doors:

"In order to secure more quickly the \$12,000.00 necessary to raise the debt, repair this building and properly equip it for service, the board of directors have ordered the secretary to close this building, except at such times and for such purposes as is below specified, and all interested in the Young Men's Christian Association are requested to assist in this campaign to raise the necessary funds for its success."

The bath rooms will be open for use from 5 p. m. until 9 p. m. on Mondays, Tuesdays, Thursdays and Fridays. Saturdays it will be open from noon until 9:30 p. m.

"The gymnasium will be open Tuesday and Friday evenings and will be in charge of Mr. G. W. Bachman.

The juniors may take their baths any evening from 5 until 6 except Saturdays. Saturdays they may have their baths from 1 until 2 p. m."
